NEW YORK, August 25.—Arms and ammunition for the Cuban government were shipped from this city to-day for Havana, on board the Ward Line steamwere shipped from this city to-day for Havana, on board the Ward Line steamship Mexico. The steamer had stowed away in her hold 15,000 Remington repeating rifles, 800 rounds of ammunition and kix Gatling rapid-fire guns for the use of President Palma's forces. The shipment, it was said, would have been larger, but the vessel could carry no more. The Arkanasa, which will sail next Thursday, will carry 2,000,000 rounds of ammunition and 5,000 Remingtons for the Cuban government.

At the office of M. Hartley Company, the firm which shipped the supplies, it was said that the guns were ordered by cable on Thursday by the head officer of the government arsenal at Havana, on the order of President Palma. It was a rush order, and called for immediate shipment.

Annexation Next.

Americans in Washington who are familiar with conditions in the island of Cuba are unanimous in two particulars; First, in sympathizing with the revolutionists; second, in predicting that this revolution is the first step in the chain of events which will lead to the annexation of Cuba to the United States.

"An American who has been in Cuba and is at all familiar with the methods of the Palma government must be in sympathy with the people who are struggling to overthrow it," said Captin J. L. Pearcy, who has interests in the isle of Pines, where he has spent much of his time. He has also been on the Island of Cuba a great deal, and has had opportant and the control of tunity to study the Cuban official and his methods at close range. Captain Pearcy was for several years United States consul at Colon, and is thoroughly familior not only with the Spanish language, but with the character and temperament of Spanish-American peoples.

"The Cuban government is simply a business syndicate," said Captain Pearcy, "It should not be called a government at all. If a government at though wider the form of a recubilic it is a

tyranny, such as English-speaking people know nothing about. There has never been an election in the island—that its, there has never been anything like an honest election.

"A day or two before the presidential election last fall, over 2,000 election officers were arrested by it: rural guards on forders from Hanava, and kept in fail until after election day. The arrested officials were in overy instance members of the Liberal party, and opposed to the re-election of Palma, who represents the Moderates. "The Constitution of Cuba is continually violated. It provides that the alceleded of the tree of Plans and there the election was a farce.

"The Mayor of Nueva Gerona on one occasion sent out word by a policeman, to a dozen or so citizens of the Moderate party that there would be an election."

"In the United States can only divest its sovereignty over Cuba by an act of Congress, That has not been done. The exercise of sovereignty over a territory is the test as to whether it is foreign or domestic.

"If Cuba is foreign territory, Cuba can act absolutely independent of the United States of the Platt amendment would not be binding on that territory or the people of Cuba.

"To make the Platt amendment operative the person contending for it must concede that Cuba was or is domestic territory. For how could the United States are conceded that Cuba was or is domestic tory?"

"When the Spanish war was well over every Cuban began to clamor for a pen-sion. Possibly they had seen how easy the United States for an example. They came to Hayana with their claims, from 75,000 to 100,000 strong. The government issued these so-coiled patriqts, many of them men who had never fred a gun in their lives, scrip, that is, certificates that the person in whose name the certificate was made out was entitled to a sum ranging from seventy-five to several hundred dollars. The heiders of this scrip at once got rid of it for about ten or fifteen cents on the dollar. I have a friend in Hayana who bought 35,000 of this script for \$1,300. A great many people rabout Hayana igot 400d of their spaper for little or nothing, but the great bulk of it went to officials of the government. It is said President Palma himself got a large amount of this scrip,

This was an adjourned meeting, held expressly for the purpose of securing a report upon the financial standing of both the Roberts Filtering Company and Mr. C. V. Roberts siso, as he had offered himself as security as a guarantee to the city of Manchester. We received a report of the company, which did not appear to be what several members of the body had anticipated, and no report whatever upon the financial rating of Mr. C. V. Roberts. We therefore offered a motion to postponed until the information could be obtained. I regret very much the necessity of having to give so much publicity to the matter, as there seems to be a disposition on the part of some people to keep "some public matters out of the newspapers." I have the honor to represent the people of the Second Ward, and do not wish to appear as being an obstruction to clear water without their knowing why I wanted the matter "postponed a little while."
